Lab 7: Fuzz Testing for Input Validation Bugs
Ski Resort Pass

Name: Aarya Tedla
SRN: PES1UG24CS496
Section: I

Repository:
https://github.com/AaryaTedla/L6_L7_08_ski_resort_pass

Completed Hypothesis fuzz tests for all three functions.
Fixed input validation for pass expiry dates, trail gradients,
and lift access codes.

Before fixing: 26 tests failed, 3 passed.
After fixing: all 29 tests pass.

The Lab 7 folder contains the fixed application, updated tests,
original terminal screenshots, and README.
